PERSPECTIVES: In her memoir, *Troublemaker: Surviving Hollywood and Scientology*, Leah Remini offers up a no-holds-barred memoir, including an eye-opening insider account of her tumultuous and heart-wrenching thirty-year-plus association with the Church of Scientology. That was never more evident than in 2013, when Remini loudly and publicly broke with the Church of Scientology. Now, in this frank, funny, poignant memoir, the former *King of Queens* star opens up about that experience for the first time, revealing the in-depth details of her painful split with the church and its controversial practices. But when she began to raise questions about some of the church's actions, she found herself a target. In the end, she was declared by the church to be a threat to their organization and therefore a "Suppressive Person," and as a result, all of her fellow parishioners—including members of her own family—were told to disconnect from her. BUSINESS IN THE BLACK: Dr. Brenetia Robinson, the Destiny Diva and Founder of Proverbial Peace Revived Ministries talks about how to de-clutter your life to walk in prosperity in every area of your life in 2016. Robinson says you must make an assessment of what went wrong in 2015 and why and determine your role in the failure. You must also determine your own value and commit more time and attention to the goal you have set for yourself.
